

FIVE WAYS TO DRIVE **GROWTH** THROUGH THE **SIMSPACE** PARTNER PROGRAM

SIMSPACE PROVIDES THE MOST ADVANCED CYBER RANGE ON THE MARKET. BY PARTNERING WITH US, CYBERSECURITY PROVIDERS CAN HELP THEIR CUSTOMERS PERFORM MORE EFFECTIVE CYBER RISK ASSESSMENTS AND DEFEND AGAINST SOPHISTICATED ATTACK METHODS. AND WITH OUR REALISTIC SIMULATED ENVIRONMENTS, YOU'LL BE ABLE TO PERFORM ENGAGING DEMOS AND CLOSE MORE DEALS.

Elevate your customers' training programs

Help your clients gain hands-on experience defending against advanced threats by providing them with automated simulated attacks and a high-fidelity replica of their production environment.

Whether you're running internal live-fire training exercises or hosting an industry event, SimSpace adds unmatched realism to cyber range exercises with common security tools as well as realistic virtual users and attack methods.

Provide better red team vs. blue team exercises

Help clients maintain compliance

SimSpace solutions are aligned with leading cybersecurity associations and industry regulations, so your customers can demonstrate compliance with business-critical guidelines.

Help your customers build confidence in their cyber defenses through unparalleled team training and technology optimization capabilities.

Deliver a truly differentiated solution

Win more customers

Show prospective buyers how your solution will function in their unique production environment and accelerate onboarding through engaging product demonstrations.

Whether you're a technology or channel partner, managed security service provider, systems integrator or a cybersecurity association, SimSpace has a **partnership tier** that will suit your business model.

1. White-glove integration services help you quickly and seamlessly operationalize your solution
2. Flexible pay-as-you-go business model, revenue sharing opportunities and incentives drive positive gains for our partners
3. Open cyber range quickly deployed via cloud, on prem or as a service for minimal setup burden
